Job Summary:

Performs moderate data analysis to analyze statistical and financial data for use in pricing, reserving, forecasting, and risk assessment. This position independently conducts analyses, develops models, and prepares reports and recommendations to support strategic and operational decision-making.

Primary Duties & Responsibilities:

- Analyze financial data and rate information submitted to the state contained in rate filings for appropriate assumptions, use of statistical modeling and predictive analytics.
- Evaluate associated filings for insurance policies and use various internal and external resources to assess the reasonableness and fairness of insurance rates with a high degree of attention to detail.
- Review pricing strategies and risk assessments used in rate filings by insurance companies in setting their premium rates.
- Provide insight and recommendations to OCI staff as needed. Maintains confidentiality when necessary and as required by statute.
- Assess past claims and future projections used in Insurance companies; forecasts of their potential liabilities and expected loss ratios.
- Collaborate with external agencies such as the NAIC, CMS, Georgia Access, and internal OCI divisions such as Financial Oversight, Legal and Consumer Services as necessary to resolve various issues and answer questions regarding Insurance products and rates.
- Ensure filings are following all regulatory requirements, including but not limited to department rules, State of Georgia's Insurance Code, Federal law, NAIC, Actuarial Standards Board, Society of Actuaries and Academy of Actuaries guidelines when applicable and appropriate.
- Perform other duties as assigned.

Entry Qualifications:

High school diploma/GED and two (2) years of job-related experience; or two (2) years of experience required at the lower-level Actuary 1 (RCP300) or position equivalent.

Preferred Qualifications:

In addition to Entry Qualifications, Preferred Qualifications may be added by the agency.
